

Early High School Graduate

When you completed the MyFinAid Questionnaire, you answered that you will be graduating early from your high school.

You must submit a signed statement from an official at your high school or school district indicating that you have completed all of the required coursework and have successfully passed any required proficiency examinations for the high school diploma. The statement must also include the date when the actual high school diploma will be issued.

Students must complete all requirements to receive their high school diploma prior to the submission of this letter. Letters stating a student will complete the requirements at a later date will not be accepted.
