

Documentation of Selective Service Registration

It is a requirement that 18–26-year-old males register with Selective Service. Please provide documentation that you are registered with the Selective Service.

If you have not registered and are between 18-26 years of age, visit www.sss.gov to register.

If you have not registered and are over 26 years of age, you will need to obtain a status letter from Selective Service (<https://www.sss.gov/verify/sil/>). When you receive your status letter, please submit the letter along with a written statement explaining why you failed to register with Selective Service to Financial Aid Resources and Planning Services.
