College of Education & Human Services
University of Wisconsin Oshkosh
Bachelor of Science in Education Degree Program
Special Education Major with Licensure in EC and ECSE
And
Wisconsin Technical College System

Associate of Applied Science Degree in Early Childhood Education

Introduction: Effective Fall semester 2018, the Department of Special Education, College of Education & Human Services at the University of Wisconsin Oshkosh recognizes an educational partnership with the Wisconsin Technical College System (WTCS) with regard to graduates of the Associate of Applied Science Degree Program in Early Childhood Education. This agreement will provide a bachelor's degree completion program articulating transfer to the Bachelor of Science in Education degree program in Early Childhood & Early Childhood Special Education (EC/ECSE).

Expected Outcome: The goal of this agreement is to refine the existing system or transfer for early childhood professionals completing an associate's degree within the Wisconsin Technical College System as they transition into the new EC/ECSE Bachelor of Science in Education and teacher licensure program at the University of Wisconsin Oshkosh. The agreement coordinates the competency-based assessment system and develops consistency between institutions for students. Fox Valley Technical College (FVTC) has served as our partner in this initiative; however, this program will apply to all 16 institutions in the Wisconsin Technical College System.

University of Wisconsin Oshkosh Admission Requirements: Wisconsin Technical College students must also meet University of Wisconsin Oshkosh Admission Requirements. UW Oshkosh reviews official transcripts from all post-secondary institutions attended. UW Oshkosh can accept transfer credits from accredited institutions only. If a student has transferred credits from a non-accredited institution to a WTCS program, those credits will not be accepted at UW Oshkosh and will need to be completed.

Conditions:

- The terms of transfer of this program-to-program articulation agreement apply *only* for the purposes of entry to the Bachelor of Science in Education degree program in Special Education (licensure in EC/ECSE) at UW Oshkosh. Students from the Wisconsin Technical College System seeking admission to other degree programs offered at UW Oshkosh may transfer to the University only those credits recognized under the current UW System – WTCS Transfer Guidelines as documented on the Transfer Information System Web site at: <http://www.uwsa.edu/tis/>. Wisconsin Technical College System students admitted to UW Oshkosh under the terms of the articulation agreement who subsequently elect to pursue a degree and major other than the Bachelor of Science in Education degree program in Special Education (licensure in EC/ECSE) will find the extended transfer of credit *does not apply* outside of the BSE EC/ECSE program.
- Students from the WTCS must have *completed* the above named Associate of Applied Science degree program (fulfilling all course work stipulated in the appropriate appended credit transfer grid) with a graduating grade point average of 2.75 or higher for consideration for transfer under the terms of this articulation document. The terms of the articulation agreement do *not* apply to WTCS students who have completed only a portion of the required courses for the Associate of Applied Science degree program named above.

Transfer of Credits:

- The Bachelor of Science in Education degree program in Special Education (EC/ECSE) at UW Oshkosh accepts in transfer the general education, pre-professional education, and early childhood education courses stipulated within the appended credit transfer grid for the Associate of Applied Science Degree Program in Early Childhood Education.
- While EC core courses are consistent across WTCS institutions, it is recognized that general education requirements may vary. General education credits from campuses other than FVTC will be evaluated on a case-by-case basis. However, the courses listed here may serve as a guide for other institutions.
- This agreement abides by UW System policy to transfer a maximum of 72 credits earned at two-year institutions to the University of Wisconsin Baccalaureate degree programs.
